

**THE 2010 NATIONAL STUDENT CLIMATE & CONSERVATION CONGRESS (SC3)  
The US Fish & Wildlife Service's National Conservation Training Center (NCTC)  
June 26 to July 1, 2010**

**Suggested Reading List:**

Below is a list of suggested books for fellows to read in preparation for the conference. While many readings will be provided to read during congress, fellows are encouraged, if time permits, to read books pertaining to topics before hand. Because students will be provided with time to meet and talk with speakers, the below suggested books will most definitely help the fellows better understand the subject matter and carry on deeper and more fruitful conversation with other fellows, faculty, and speakers while at the conference. Please note: These are SUGGESTED books to read and in no way required.

SC3 speaker books:

**The Thunder Tree**--Robert Michael Pyle

**Red Alert!: Saving the Planet with Indigenous Knowledge**--Dr. Daniel Wildcat

**Wild Earth: Wild Ideas for a World Out of Balance**--Tom Butler

**Natural Visions: The Power of Images in American Environmental Reform** --Finis Dunaway

**The End of Nature**--Bill McKibben

**Sea Change: A Message of the Oceans**--Sylvia Earle

Others:

**A Sand County Almanac**--Aldo Leopold

**Silent Spring**-- Rachel Carson

**Overshoot: The Ecological Basis of Revolutionary Change**--William R. Catton

**Last Child in the Woods**--Richard Louv

**Hot, Flat, and Crowded 2.0: Why We Need a Green Revolution and How It Can Renew America**--Thomas Friedman
